

Athena Pro HYBRID POOL

The **Athena Pro** pool has the stunning, sleek lines of a thoroughbred.

An incredible 8m long, 1.5m deep and 2.25m wide, the Athena is an engineering triumph.

The four powerful Turbo jets are controlled by a 10 speed variable speed drive, allowing you to adjust the turbulence free counter current to match different swim styles and swimmer abilities.

The superior length of the Athena, together with the tiled swim line on the pool floor allows you to fully relax and concentrate on your stroke without the worry of bumping into the pool sides.

Take a deserved rest between workouts in one of the adjustable, fully jettied lounge seats well away from the counter currents.

ATHENA SPECIFICATIONS

DIMENSIONS 8m x 2.25m x 1.54m

SEATING 2 jettied cool down seats

WATER CAPACITY 11,890 litres

DRY WEIGHT 1,832kg

JETS

4 Turbo counter current jets with a 10 speed variable speed drive, producing up to 2,200 gallons output per minute
