Manta 4-4 Pro

With the addition of a variable speed drive with 10 speed control, the Manta 4-4 Pro lets the swimmer select the best water speed to suit their fitness and stroke.

The Riptide Manta 4-4 is a luxurious and powerful hybrid exercise pool with two jetted cool down seats.

The Manta 4-4 hybrid pool comes equipped with four Turbo jets which provide up to 2,200 gallons a minute of clear, turbulence-free counter current with no rough swimming and no air bubbles.

The contrasting swim line provides a point of reference which helps to maintain a central position in the broad swim stream.

The opposite end of the Riptide Manta feature two full length jetted cool down seats, plus steps to enable easy access. The 25 hydro massage jets can be adjusted independently and are elegantly finished with stainless steel escutcheons.
