COMBINATION POOL

The ultimate swim and spa package, the Poseidon gives you the best of both worlds, to form one of the finest exercise pools available today.

Two volumes of water ensure that the spa end can be adjusted to hot and the swim end kept at a lower temperature more suitable for swimming against the powerful counter currents.

The spa end is the perfect space for up to five adults including a full length lounger seat with powerful hydrotherapy jets and LED lighting system. The swim end has six powerful stainless steel Swim jets and three jetted rest seats for when you are working out with friends and family.

The Poseidon is designed to a very high spec. and crammed full of features to create a stunning swimming pool. Cutting-edge pump and heating technology ensures that the Poseidon is also extremely economical to run.
